PROFILE

I'm currently working in a Data Specialist role, where I bridge the gap between technology and commerce education. I've collaborated on the development of various simulation- and web application-based practice tools, combining data-driven insights with innovative solutions.

WORK EXPERIENCE

Data Specialist
2024 - PRESENT

Nergy India Private Limited (Ed Tech)

- A company focused on developing SL Tech (Simulated-Learning and IL Tech (Interactive-Learning) platforms
- Worked with cross-functional teams to develop practice tools aligned with business objectives and product strategy.
